Curves in all the right places

Monoform gives you a free hand to produce beautifully curved signs up to 3 metres high. You can use sheet aluminium without rolling or welding. Turn a few screws and Monoform's clever tensioning system produces the attractive, evenly curved face panels for you.

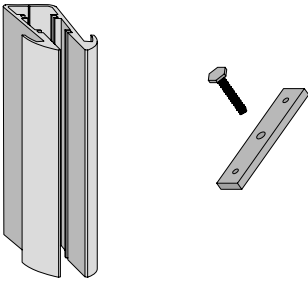

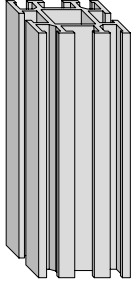

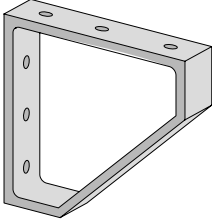

Designed on the solid foundations of our off-the-shelf monolith system, Sculptura - renowned in the industry for its strength, versatility and ease of assembly - you'll find working with Monoform is just as easy. And the signs you produce just as impressive.

Illuminating Monoform's no problem either. Its internal framework is designed to leave you plenty of room for light fittings, electrics and more besides. In fact, the more you work with Monoform, the more you'll discover just how much this system has to offer you and your customers.

Freestanding, wall-mounted, suspended or projecting, Monoform lets you put curves in all the right places.

COMPONENTS

<p>MONOFORM Panel retaining extrusion.</p> <p>Mill ML510</p>		<p>MONOFORM FIXING PACK Insert Nut & Bolt. (pack of 10)</p> <p>Mill SB1060</p> <p>M8x16 NYLOC NUTS & BOLTS BZP Steel SB1009</p>
<p>4-SLOT-FRAME Use in conjunction with Monoform Brackets to construct a internal Monoform.</p> <p>Mill ML1008</p>		
<p>MONOFORM BRACKET Connects to 4-Slot internal framework.</p> <p>Mill SB1001</p>		
<p>MONOFORM FOOT</p> <p>Mill SB1063</p>
