

## Signpole and Signpost Caps and Corners

Aluminium cast components and flat cap

Flat and cast cap components fixing to sign pole

### Infopanel Signpole and Signpost Caps and Corners

The Infopanel interior and exterior system is a design classic – simple, yet so versatile with the range of Signpole and Signpost caps and corners available.

Caps and corners fit onto the top of a pole or a post to provide a secure fixing and to prevent unauthorised tampering of the Infopanel. Square, ribbed or plain corners help create crossbars across the tops of sign structures and are available in mill, black or white finish.\*

Flat caps are available in:

- white or black plastic
- 2mm thick flat aluminium discs in mill, black or white painted finish\*; flat aluminium caps include stainless steel screws
- packs of 10 for plastic caps and individually for flat aluminium caps

Cast caps and corners are:

- made from aluminium
- available in mill and black or white painted finish\*
- available in single units; Signpole / Signpost 55 flat aluminium caps available in packs of 2

\* Painted powder coat finishes are available in black (RAL 9005) and white (RAL9016) 75% eggshell as standard.

Infopanel is the preferred choice of architects, designers and signmakers worldwide
