

Square and Curved Edge Finishing Plate

Slatz Directory using curved-edge finishing plate

"Top and tail" any Slatz directory

Slatz Square and Curved Edge Finishing Plate

The Slatz Directory system is a design classic – simple, yet so versatile with the Square and Curved Edge Finishing Plate range.

Incorporate finishing plates into the top and bottom of Slatz directories for a smooth finish and a tamper-proof edge to prevent unauthorised dismantling of the sign.

Slatz Square Finishing Plates are available in:

- a variety of standard finishes, including mill, silver anodised and black anodised
- 3275mm lengths that can be cut to exact requirements, minimising waste
- 6 standard sizes to match standard Slatz face panels + 1 Mini edge to fabricate deeper Slatz panels using 1mm substrate (not supplied)

Slatz Curved Edge Finishing Plates are available in:

- 2 standard finishes: mill and silver anodised
- 3275mm lengths that can be cut to exact requirements, minimising waste
- 2 standard sizes to match standard Slatz face panels and provide more design options

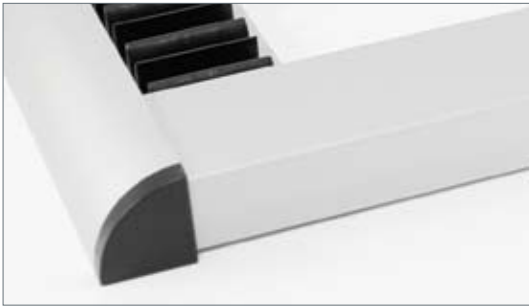

Slatz is the preferred choice
of architects, designers and signmakers worldwide
