

8, 6 and 4 clip Multicaps

Multi-panel door signs

Mini directories

Wayfinding / directional signs

Slatz Multicaps

The Slatz Directory system is a design classic – simple, yet so versatile with the Slatz Multicap range.

Multicaps enhance the standard Slatz extrusions range and can simplify the fabrication of small directories.

Build internal multi-panel signs with just 2 end caps and suitable combinations of standard Slatz face panels.

Multicaps are:

- easy to fabricate and manufacture, with simple, straight cuts of aluminium extrusions – there's no need to cut side-track
- versatile – they can be used with any standard Slatz faceplate extrusions to construct many panel combinations
- easy to fix
- economic, saving you money and time
- made from black ABS plastic, which can be painted to any RAL colour (using suitable paints)
- available in 3 convenient sizes – 8, 6 and 4 clips – for easy use with the Slatz range

Slatz is the preferred choice
of architects, designers and signmakers worldwide
