

Signpole Navigator extrusion

▲ Curved monolith sign with Signpole Navigator extrusion

Free standing curved face signs

Wayfinding / directional / identification

## Infopanel Signpole Navigator

The Signpole Navigator pole is simple to use and so versatile, enabling sign makers to create contemporary signs with bespoke curved monolith structures.

Sign makers are free to fabricate a huge variety of central structures to fit between Signpole Navigator poles. What's more, Signpole Navigator poles strengthen and enhance the appearance of curved modular signs.

### Signpole Navigator poles:

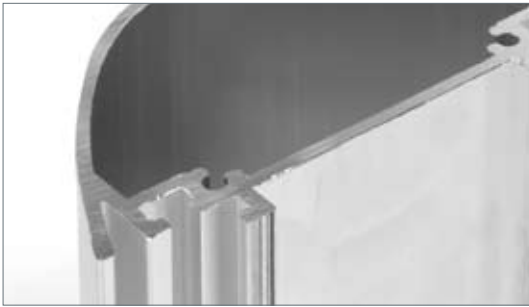

- are available in 6030mm lengths and mill finish
- are suitable for interior and exterior applications
- are designed to accept steel stiffeners so that larger signs can be fabricated
- can be used with a wide variety of materials and widths to meet any requirement

Infopanel is the preferred choice  
of architects, designers and signmakers worldwide
