

# C-Fix

C-Fix post and panel combination

## C-Fix

The C-Fix system is a refreshingly modern approach to providing wayfinding, identity or information signage. Simple yet so versatile.

C-Fix clamps enhance the look of free standing or finger-pole Signs.

Build single or multi-panel signs for exterior or interior use.

### C-Fix is:

- Easy to fabricate and manufacture
- Used to direct, identify or inform
- An attractive design to meet the demand for an alternative to simple and plain signs.
- Versatile – the freedom to choose your own rigid substrate, colour, shape and size for panels
- Also available using standard size aluminium finger panels for finger-pole signs.
- Topped out in a choice of shaped caps for the C-Fix pole to offer different designs and appeal.

Fingerpole Systems

Doublesided free standing

Wayfinding / directional signs

C-Fix is the preferred choice of architects, designers and signmakers worldwide
